Update on Bunker Hill's New Recycling Program

Dear Residents -

Thank you to all residents for your response to our new recycling program planned to begin **April 1, 2015**. The timeframe to request the smaller, 35 gallon cart, is now closed. The following schedule is provided for implementation:

Wednesday, March 25th ***Recycling Day!***

The last day to use small (existing) bins.

Thursday & Friday, March 26th and 27th ***New Cart Delivery!***

Please leave empty (existing) bins out **Thursday Morning**. Make sure they are visible from the street - just like on Recycle Day. Republic Waste will pick up the small bin(s) and deliver the rolling carts. This will take up to two days to reach all residents.

Residents are welcome to keep the small bins if desired at no charge.
If no bin is out on March 26 or 27, Republic will still deliver your new cart!

Wednesday, April 1st ***First Recycling Day with Rolling Cart!***

Roll out your new cart (*no need to sort items!*) and make sure it is visible from the street.

Background: With residents asking for an additional or a bigger recycling bin and Republic Services accepting a larger number of items, the City Council considered various options and voted to approve an expanded recycling program for 2015 with an increase in the rate to provide for larger carts yet still provide the same "back door service." Recycle day will continue each week on Wednesdays. Recycling must be placed in the cart (no need to sort) and the cart must be viewable from the street by 7:00 am.

We know change can be difficult. Thank you for joining us in ***"Going Green in 2015!"***

Karen Glynn, City Administrator
